

**REMARKS****INTERVIEW SUMMARY**

On August 19, 2004, the applicants' undersigned representative conducted a telephone interview with the Examiner. The applicants would like to thank the Examiner for taking the time to discuss the present application. During the interview, the Examiner and the applicants' representative primarily discussed the application of the Pike (GB 2306855) reference to claims 1, 12 and 13 of the present application and discussed the Examiner's interpretation of the claim scope as expressed by the claims on August 19, 2004. While no agreement was reached as to claim amendments that would satisfy the Examiner's concerns, the Examiner did agree to consider further claim amendments directed towards clarifying that measurements of the radio environment occur when the mobile station is using the common simulcast broadcast carrier after handover.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. 502117 – Motorola, Inc.

Respectfully submitted,  
Thomas et al.
